

Centre on the right Path

The Gosport Business Centre has nurtured yet another winning company. It has seen Path Intelligence beat 40 of the UK's most pioneering fast-growth businesses. And the reward for its part in the Hub Showcase Challenge was a cash prize and potential investment.

Path Intelligence provides data on the flow of people into shopping centres, town centres, mass transit stations and other indoor arenas.

The business centre, on the Frater Gate Business Park, Aerodrome Road, provides managed office space for new businesses.

Other winners from the centre are Flight Data Services and Sands Tanning.
